PROFILE

I am now looking for an Internship to have some work experience and skills improvement that will take my career to the next level. I am a highly motivated and proactive student, with some outstanding skills.

EXPERIENCE

Finalist at SIH'22

Smart India Hackathon

- We have a group named CodeBooter and we tried for Smart India Hackathon 2022 with the problem statement of Ministry of Education Government of India, To enhance their application and website with more features and OCR.
- We did presentation two times and get selected both times.
- We went to Excel Group of Colleges, Komarapalayam for the SIH'22.
- We are the finalist their.
- In SIH, we worked on real time projects and earn some industry level skills like Time Management, Project Management etc.

Winner in Logo and Banner Designing

LNCT Coursera Community

- A competition week by LNCT Coursera Community is organised in LNCT Group of Colleges named AARAMBH.
- In that week there is a competition of Logo and Banner Designing.
- I participated in that competition and won that competition.
